

Prior Aluminium

About Prior Aluminium

Prior Aluminium is a family run business. We started in 1988 at a unit on the Atherstone-On-Stour Industrial Estate, just outside Stratford upon Avon.

In April 2000 we moved into our own purpose built factory on The Bird Industrial Park at Long Marston. Since then we have gone from strength to strength, opening a Conservatory Centre in 2006 at The Stratford Garden Centre in Clifford Chambers.

We believe in old fashioned values, which is why most of our work is from existing customers and recommends. We approach our work from your point of view, offering the complete package, ensuring complete care from start to finish.

Why choose us?

We believe that the customer is always right and we tailor our products to match your exact requirements.

Whatever your requirements, property type and budget, our dedicated team will work with you from step one to make your ideas become a reality. This begins with an on site survey.

We offer...

Bifolding Doors from £1200 per leaf,
Aluminium windows, Triple track sliding doors from £2200 per leaf including VAT.

(Find more information at the final page)

How do I arrange a survey?

Click on the **"Download Brochure"** button to view some of the products and brands we supply and fit. Click on the **"Get Quote"** button at the side of the screen to request a survey or callback so we can discuss your requirements in further detail.

Once we have all the information we need on your project we will send you a **no-obligation electronic quote** which you will receive as an email from WinQuote. You can easily accept this quote, reject it, or direct message us to ask us any questions about it.

Things to consider when buying Windows, Doors and Conservatories

Do you need planning permission?

When installing a conservatory, planning permission isn't usually required. You're only likely to need planning permission if your conservatory will cover more than **half the area surrounding your house**, or if the conservatory roof is higher than the highest point of your existing property.

You must also obtain planning permission before you build on raised platforms such as **verandas and balconies**.

Energy Ratings

The Window Energy Rating system tells you how energy efficient a window is. Windows are given an energy rating on a scale of G to A+, with **A+ windows being the most energy-efficient**.

If saving money on energy bills is important to you and you want a warmer home then it goes without saying that you should try and buy the most energy efficient windows you can afford.

Reputation

As always, buy from a reputable business. There are lots of great companies out there but others that are less reputable.

Don't be afraid to **check out our reviews** online and in our app account to see what our past customers have to say about us.

Use BM Trada, Certass and Fensa registered glaziers.

It's a good idea to choose a double glazing installer that is registered with a competent person scheme, such as **BM Trada**, **Certass** or **Fensa**. Membership means that companies can self-certify their work complies with building regulations. It also means the work is covered by an insurance-backed guarantee if it's not compliant and the company goes bust.

In England and Wales, new and replacement windows must meet a certain level of energy efficiency. You need to get a certificate to show your windows comply with these regulations. An installer registered with one of the self-certification schemes will issue this certificate for you - otherwise your council will need to come and check the work.

Aluminium Entrance Doors

Aluminium doors are sleek, modern and will give your entrance a contemporary look. Individually made using only the highest-quality extruded aluminium alloy and powder coated for an attractive and long-lasting finish.

Our entrance doors are available in a complete range of glazing formats and include several added security features, including multi-point locking mechanisms.

Entrance doors are available in a wide variety of colours, finishes and formats to best complement your home.

- ✓ **Stunning appearance**
- ✓ **Strong, safe & secure**
- ✓ **Available in any RAL colour**

Bi-folding Doors

- ✓ **Perfect addition to your home**
- ✓ **Modern, safe & secure**
- ✓ **Whole host of colours, handles and accessories**

Modern, energy-efficient and stylish, our aluminium external bi-folds doors will enhance your pleasure in your home and give you peace of mind with the best locking system available.

Enjoy extra light and outdoor views in cooler weather and bring the outdoors in when it's warm by folding away the glass panels.

Aluminium Windows

Aluminium is the perfect material to give a contemporary, modern edge to your home's appearance. The frames are lightweight and secure, and their narrow profile maximises the sunlight flooding into your rooms.

Every window is double glazed for energy efficiency and designed and built exclusively for you.

They will keep their good looks because we use the highest-quality aluminium alloy and coat the frames with polyester powder to create a long-lasting finish.

- ✓ **Long-lasting finish**
- ✓ **Energy efficient**

Window Systems

Our **OVOLo WINDOWS** combine a timeless look of sculpted framing with ground-breaking technology to provide your home with a classic, yet sustainable glazing solution.

The Ovolo window system is a high performance, robust and reliable window made of inherently strong aluminium.

Highly adaptable and flexible the **CHAMFERED RANGE** is ideal for homeowners looking for a traditional framing look.

Our Chamfered windows improve safety, increase thermal performance and complement the style of any property.

Our **HERITAGE WINDOWS** are perfect for period properties and offer an ideal replacement for steel-framed glazing.

Manufactured from lightweight aluminium, they offer a higher performance alternative to traditional windows, whilst still retaining the look and style of your property.

Window Systems

If you want that stylish, modern look with clean lines and a sleek profile then our **CONTEMPORARY ALUMINIUM WINDOWS** are the perfect choice for you.

Through innovative design and superior build quality, this window system offers high thermal and acoustic performance alongside the inherent strength and low maintenance benefits of aluminium to make your home safe and secure.

For floor to ceiling glazing that offers unencumbered views from your property with minimal framing, our **PANORAMIC WINDOW** system is the perfect choice for you.

Opening up a room to let the light flood in, Panoramic windows have narrow framing and can offer uninterrupted glazing to a height of 2 storeys. They are also tested to PAS24 and are built using strong but lightweight aluminium, combining aesthetics with improved security for you home.

Lanterns & Rooflights

Whether you're looking to upgrade your conservatory, add a splash of light into a dark room, or add a light and airy extension to your home, our roofs offer the perfect solution.

Our roof lanterns are designed with architectural principles in mind. Equally slim sightlines throughout the lantern mean it's proportionately perfect, offering you visible elegance inside and outside. Available from as small as 1m x 1m, right up to 8m x 5m it's up to you exactly how much of a statement you want to make!

- ✓ **Maximum light**
- ✓ **Thermal performance**
- ✓ **No bars interrupting your view**

Finance Options

Funding your new purchase from Prior Products Ltd.

To make life easier for you Prior Products are offering a variety of affordable, competitive and convenient easy payment finance options.
